This e mail is to express my opinion that the department of justice should settle this matter in favor of Microsoft. All this litigation is a field day for the media and undermines a strong corporation that we need to stay strong. As a corporation, I fully understand the precariousness of doing business day to day. Another collapse, like Enron isn't needed. Why try and collapse a company that has done so much for every business in the United States. The year 2002 is not the time to pursue this type of litigation.
